

## Endorsement policy

We get a lot of requests for endorsement every week so we've decided to set up a general policy for endorsement.

We generally don't do any endorsements or artist-deals since we're not a big company with millions of marketing budget.

We have a very flat distribution structure. So we can save money and offer our products to a really fair price. Every device is developed and handcrafted in Germany on a high quality level.

We understand that you have clients in your studio or on stage that will see our products and will start buying all of them immediately.

We hope you will also understand our decision to not give any privilege to any client, but to treat anyone the same.

You can be sure that every musician, engineer or producer who sends us a quote or an interview bought our gear because he loves to work with it.

## You are famous?

Why not give something to the next generation?

Buy two of our products and we will send one to a school, college or university of your choice.

We will also mention your good deeds on our website and our Facebook page.
